**MEMORANDUM FOR EDMUND C. MOY, DIRECTOR
UNITED STATES MINT**

FROM: Michael Fitzgerald /s/
Director, Financial Audits

SUBJECT: Audit of the United States Mint's Schedule of
Custodial Deep Storage Gold and Silver Reserves as of
September 30, 2007 and 2006

The attached report presents the results of our audits of the United States Mint's (Mint) Schedule of Custodial Deep Storage Gold and Silver Reserves (Custodial Schedule) as of September 30, 2007 and 2006. This report replaces our original report on this audit (OIG-08-001) dated October 19, 2007. We have re-issued this report to include the definition of a significant deficiency that is required by *Government Auditing Standards*, issued by the Comptroller General of the United States. This definition was omitted from our report OIG-08-001. Since we are recalling our report OIG-08-001, please destroy all copies of OIG-08-001 in your possession.

The Custodial Schedule is the responsibility of the Mint. We conducted our audits in accordance with *Government Auditing Standards*.

We rendered an unqualified opinion on the Custodial Schedule as of September 30, 2007 and 2006. In addition, our report contains no material weaknesses related to internal control over financial reporting, and no reportable instances of noncompliance with laws and regulations.

The results of our audits will be used by KPMG LLP, an independent public accountant, who is performing the audits of the Mint's Fiscal Year 2007 and 2006 financial statements. In addition, copies of our report are being provided to the Secretary of the Treasury, the Treasurer of the United States, and the Department of the Treasury's Chief Financial Officer.

Your staff has reviewed our report, and agreed with our conclusions. Should you have any questions, please contact me at (202) 927-5789.

SECTION II - UNITED STATES MINT’S SCHEDULE OF CUSTODIAL DEEP STORAGE GOLD AND SILVER RESERVES AS OF SEPTEMBER 30, 2007 AND 2006

SECTION I -

REPORT OF THE OFFICE OF INSPECTOR GENERAL

*The Department of the Treasury
Office of Inspector General*

To the Director of the United States Mint:

We have audited the accompanying Schedule of Custodial Deep Storage Gold and Silver Reserves (Custodial Schedule) of the United States Mint (Mint) as of September 30, 2007 and 2006. This report presents our unqualified opinion on this Custodial Schedule. Our audit disclosed no material weaknesses and no instances of reportable noncompliance with laws and regulations.

Management's Responsibilities

Management is responsible for: (1) preparing the Custodial Schedule in conformity with U.S. generally accepted accounting principles; (2) establishing and maintaining internal control; and (3) complying with laws and regulations applicable to the Mint's custodial responsibilities for the Deep Storage Gold and Silver Reserves.

Scope of Audits

We conducted our audits in accordance with *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the Custodial Schedule is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the Custodial Schedule. An audit also includes assessing the accounting principles used and significant estimates made by

management, as well as evaluating the overall Custodial Schedule presentation. Our responsibility is to express an opinion on the Custodial Schedule based on our audits. We believe that our audits provide a reasonable basis for our opinion and our conclusions on internal control and compliance with laws and regulations.

In planning and performing our audit, we considered the Mint's internal control over financial reporting related to the Custodial Schedule as a basis for designing our auditing procedures for the purpose of expressing our opinion on the Custodial Schedule, but not for the purpose of expressing an opinion on the effectiveness of the Mint's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Mint's internal control over financial reporting.

Because of limitations inherent in internal control, misstatements due to error or fraud, losses, or noncompliance may nevertheless occur and not be detected. We also caution that projecting our evaluation to future periods is subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with controls may deteriorate. In addition, we caution that our internal control testing may not be sufficient for other purposes.

As part of obtaining reasonable assurance about whether the Custodial Schedule is free of material misstatement, we performed tests of the Mint's compliance with certain provisions of laws and regulations, noncompliance with which could have a direct and material effect on the determination of Custodial Schedule amounts. We limited our tests of compliance to these provisions and we did not test compliance with all laws and regulations applicable to the Mint. We caution that noncompliance may occur and not be detected by these tests and that testing may not be sufficient for other purposes. Providing an opinion on compliance with laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

Results of Audits

Opinion on the Custodial Schedule

In our opinion, the accompanying Custodial Schedule presents fairly, in all material respects, the balance of the United States' Deep Storage Gold and Silver Reserves in the custody of the Mint as of September 30, 2007 and 2006, in conformity with U.S. generally accepted accounting principles.

Internal Control

Internal control is a process, effected by management and other personnel, designed to provide reasonable assurance that the following objectives are met:

- Reliability of financial reporting - transactions are properly recorded, processed, and summarized to permit the preparation of the Custodial Schedule in accordance with U.S. generally accepted accounting principles, and the safeguarding of assets against loss from unauthorized acquisition, use, or disposition; and
- Compliance with applicable laws and regulations that could have a direct and material effect on the Custodial Schedule.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Mint's ability to initiate, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Custodial Schedule that is

more than inconsequential will not be prevented or detected by the Mint's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the Custodial Schedule will not be prevented or detected by the Mint's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the Scope of Audits section above and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting related to the Custodial Schedule that we consider to be material weaknesses, as defined above.

Compliance with Laws and Regulations

The results of our tests of compliance with laws and regulations disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

* * * * *

The financial management of the Mint has reviewed our report and agreed with our conclusions. Should you or your staff have any questions, you may contact me at (202) 927-5789. We appreciate the cooperation and the courtesy extended to our staff.

This report is intended solely for the information and use of the management of the Mint, the Department of the Treasury, the Office of Management and Budget, Congress, and KPMG LLP, and is not intended to be and should not be used by anyone other than these specified parties. However, this report is available as a matter of public record.

**DEPARTMENT OF THE TREASURY
UNITED STATES MINT
NOTES TO THE SCHEDULE OF CUSTODIAL DEEP STORAGE GOLD AND SILVER
RESERVES
AS OF SEPTEMBER 30, 2007 AND 2006**

Note 1 Summary of Significant Accounting Policies

A. Reporting Entity

The United States Mint, established in 1792, is an integral part of the Department of the Treasury. The mission of the United States Mint is to manufacture coins for general circulation. In addition to manufacturing circulating coins, the United States Mint manufactures numismatic products, including medals, proof coins, uncirculated coins, bullion coins (gold, platinum, and silver), and commemorative coins. These manufacturing operations are reported in the United States Mint's financial statements. The United States Mint is also the custodian of a significant portion of the United States' gold and silver reserves. The United States Mint uses the term custodial to identify gold and silver reserves held for the United States Treasury. The custodial reserves are not assets of the United States Mint, but are assets of the United States Treasury.

The United States Mint's Public Enterprise Fund (PEF) funds all custodial activities, including the protection of the United States' gold and silver reserves.

B. Basis of Presentation

This Schedule has been prepared to report the deep storage gold and silver reserves custodial position of the United States Mint. The books and records of the United States Mint have served as the source of the information contained herein. This Schedule has been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and United States Mint accounting policies.

This Schedule includes all gold and silver classified by the United States Mint as "custodial deep storage reserves" as defined in Note 2. Deep storage is defined as that portion of the U.S. Government-owned gold and silver bullion reserve which the United States Mint secures in sealed vaults. Deep storage gold comprises the vast majority of the reserves and consists primarily of gold bars. This Schedule does not reflect any United States gold and silver reported by the United States Mint as working stock, or any reserve amounts due to be replenished by the PEF, nor does it include Treasury-owned gold held at Federal Reserve Banks (FRB). Upon approval from the Secretary of the Treasury, the PEF may use gold and silver from the custodial deep storage reserves to support its numismatic operations.

Note 2 Deep Storage Gold and Silver Reserves

The gold and silver reserves reported in this Schedule are exclusive of the gold and silver reserves considered to be working stock in the United States Mint's financial records and of the Treasury-owned gold held by the FRB. The custodial deep storage gold and silver reserves included in this Schedule are primarily in bar form, but may occasionally be in coin or other form. The custodial deep storage reserves also include foreign gold coins that have been held by Treasury for many years.

The deep storage gold and silver reserves are reported in this Schedule at the values stated in 31 U.S.C. §§ 5116 and 5117 (statutory rates), which are \$42.2222 per fine troy ounce (FTO) of gold and \$1.29292929 per FTO of silver. An offsetting liability is also reported for these assets.

At September 30, 2007 and 2006, the market value of gold per the London Gold Fixing (PM) was \$743.00 per FTO and \$599.25 per FTO, respectively. Deep storage gold inventories consisted of the following at September 30:

	<u>FTO</u>	<u>Statutory Value</u>	<u>Market Value</u>
2007	245,262,897.04	\$10,355,539,091	\$182,230,332,501
2006	245,262,897.04	\$10,355,539,091	\$146,973,791,051

At September 30, 2007 and 2006, the market value of silver per the London Gold Fixing was \$13.6500 per FTO and \$11.5500 per FTO, respectively. Deep storage silver inventories consisted of the following at September 30:

	<u>FTO</u>	<u>Statutory Value</u>	<u>Market Value</u>
2007	7,075,171.14	\$ 9,147,696	\$96,576,086
2006	7,075,171.14	\$ 9,147,696	\$81,718,227

The combined custodial deep storage gold and silver reserves consisted of the following at September 30:

	<u>Statutory Value</u>	<u>Market Value</u>
2007	\$10,364,686,787	\$182,326,908,587
2006	\$10,364,686,787	\$147,055,509,278
